

I would like to comment on the proposal to expand LPFM. This would adversely affect my favorite radio station--K-Love--which provides my family and our community with positive, Christian music and messages. K-Love is the only contemporary Christian music station in our area and if it were displaced by a LPFM station, my family and our community would be deprived of this much wanted voice. For these reasons I believe it is in the public interest to give priority to K-Love, not to LPFM. Thank you!
